

# Hopkinton School Safety Council 2005-2006

The School Safety Council assists the school district to prepare for emergencies and to increase safety measures that help to ensure the well-being of students and school staff. The School Safety Council assists by advising the Superintendent and the School Committee on matters of safety; by recommending policy and procedures; by providing resources and advice before, during and after school crises; by conducting crisis drills and exercises; by providing expertise and training, and by annually evaluating school emergency preparedness and safety and recommending goals for the school system to the Superintendent.
